Add-in Variations

Starting with this recipe, a mix or your favorite scratch recipe, you can add-in these ingredients to create unique combinations of flavor! All of these “add-ins” are based on any recipe for 36 cupcakes.

Confetti Cake - fold about 1 cup of sprinkles into white batter and bake according to regular instructions. The sprinkles soften as the cake bakes and will just add color to the cake.

Mint Chocolate Chip - mix 1 1/2 cups mini chocolate chips with 1 Tablespoon flour to coat the chips. Fold into chocolate cake batter and bake according to standard directions. Add 6 drops of Lorann mint flavoring and mint green coloring to buttercream icing. Ice the cupcakes and sprinkle with mini chocolate chips.

Lemon Coconut - mix 3 Tbsp Lemon Icing Fruits and 2 Cups of macaroon coconut into a white cake batter. Bake as usual. Ice with buttercream and top with chopped candied lemon zest.

Orange Cream - add 3 Tbsp Orange Icing fruits to a white cake batter and bake. Mix 2 Tablespoons of the Orange Icing Fruit into buttercream icing.

Red Velvet - From this cupcake recipe make the following changes: add 1/4 cup cocoa powder, add 1 Tablespoon white vinegar and add 1 to 2 ounces of red gel color. Bake as usual and top with cream cheese icing. An option for cream cheese icing is to flavor a vanilla buttercream with Lorann Cheesecake flavoring.

Chocolate PB and Banana - add 3 tablespoons of Banana Icing Fruit to a rich chocolate batter and bake as usual. Ice with peanut butter frosting.

Very Berry - add 2 Tablespoons of Strawberry Icing Fruit and 2 Tablespoons of Raspberry Icing fruit to a white cake batter. This will turn the batter pink. Ice with stabilized whip cream frosting or Pastry Pride frozen whipped topping.

Pina Colada - add 3 tablespoons Pineapple Icing Fruit, 2 Cups macaroon coconut and 6 drops Lorann Rum flavor to the white cake batter. Ice with stabilized whip cream frosting or Pastry Pride frozen whipped topping.
