Dr. Seuss Cake

We made this cake for the opening of a Dr. Seuss exhibit at Art on 5th in Austin. The show included an exhibit and sale of many items from the artist's early career as well some of his most famous work.

This was a really fun cake to make. All of the pieces were carved and then covered with fondant. The hat was the trickiest part. We did the vertical bands of fondant as a wrap around – definitely needed more than 2 hands for that! The black outlines and accent marks are made with a black edible marker. It was amazing what a difference the marks made to bring the whole piece to life and make it much more “Seuss-like”. We also made lots of cupcakes for the event – all with little fondant fish cut-outs on them inspired by “1 Fish, 2 Fish, Red Fish and Blue Fish”! This was a challenging project to work on. It was so rewarding to see people's reactions at the gallery – it also made the whole area of the gallery smell like cake – sweet!
