

All in One Bake Shop

Some of my new favorite things...

Push 'N Print!

Wilton has come out with a cool cookie press. The Push 'N Print sets come in a general set of 4, a Halloween set and a Christmas set. This makes it so easy to decorate cookies - just cut and press to imprint the design. I used the snowflake disk with a chocolate cookie dough - it made such a pretty cookie. I am planning to make some spice cookies, use the presses and then brush them with gold dust after they have baked. The general set is wording - good luck, congrats, happy birthday and good luck. The Halloween set has a jack o'lantern, a trick or treat image and a ghost. The disks in the Christmas set include a Christmas tree, snowflake and a snowman. You could also use these disks to make an impression on fondant too!

Nielsen and Massey Vanilla Bean Paste

Pure vanilla with vanilla bean seeds in a paste form. I love to add this to cookie dough, cake batters and especially homemade icecream. You can see the vanilla bean specks - and I love that look, not to mention the great flavor that you get when adding this vanilla to your recipes. I want to try adding it to my egg dip for french toast this weekend.

Americolor's Flo - Coat

Turns water into oil!

This product is so cool! For any of you who work with white chocolate and color it for your candy projects - this is perfect for you! Add the Flo-Coat to you melted chocolate and then you can use regular gel colors to color your candy! Before this, you only had choices of coloring with oil based candy colors or powder colors. Now the whole spectrum of Americolor or Wilton gel colors can be used with FloCoat and the chocolate. This will make it so much easier to color chocolates for making colorful candies!

Double Sided Cutter Set

This 7 piece set ranges in size from 1 1/2" to 3 7/8" and has a plain round cutter side and a round crinkle cutter side. There are so many used for round cutters - apart from the obvious - cookies - use them to cut biscuits, fondant polka dots, puff pastry vol-au-vents and fondant frills like a Garrett frill cutter. You will find so many uses for this set! The set is white - Bronwen and I figured out that we could color them pink by soaking them in a "bath" of black and pink airbrush colors and vinegar. Of course the pink ones are more fun to use - but they work just the same as the white ones!
