Dots, Dots and More Dots!

Elegant to whimsical, polka dots can be used to finish a cake design. Here are some of Kristie's recent creations that have dots. Dots complete an embellished scroll side design on a wedding cake. Dots add interest on the wide fondant band on the round present cake. Dots are the focal point on the 3-tiered cake accented by coordinated stripes. The dark pink various size dots add color to the pink fondant cake.

Buttercream dots in coordinated colors add whimsy to Lauren's cupcake cake. Dots finish the actual design on the fun butterfly cake. The chocolate fondant dots on the 2-tiered pink cake create a fun background for the fondant cutout flowers and butterflies.

Enjoy looking at the cakes! Remember to place your cake orders early, Kristie's cakes are very popular!
